*ELECTRIC VIBRATOR MOTORS*

Today **adk** all range of vibrators motor are one of the most efficient products available on the world market to meet all vibrating equipment environments in performance and quality needs of all customer. The ranges provides all components final product quality with accurate design come with technology innovation to assure all of our range vibrators motor able to satisfy for the demanding market needs.

#### THE QUALITY OF PRODUCTS ....

The main features of adk vibrators motor are with HIGH STANDARD material and features as with :

- Electrical motor are manufacture with low loss lamination core and which increase the efficiency and will reduces the body heating temperature .
- Solid cast iron and high resistance aluminium hosing to reduce the mechanical stress.
- High load special execution bearing.
- Labyrinth system for bearing seal with wide restraining chamber
- Squirrel cage rotor designed to have high efficient starting load torque
- Insulation Class : F
- Mechanical Protection : IP 65

#### TYPE OF INDUSTRIES APPLICATION....

- \* Ceramics Industries
- \* Sand mill Industries
- \* Food Industries
- \* Qurray mill Industries
- \* Rubber & Plastic Industries
- \* Minning mill Industries
- \* Wood Industries
- \* Cement Manufacture Plants
- \* Concrete Batching Industries
- \* Screening Equipment
- \* Waste Water Treatment Plants
- \* Steel / Foundries Industries
