Innovation

starts here

Private label

Powered by technology and spirit of innovation, Euroflo always tried to set a benchmark when it comes to quality and performance. Euroflo has the experience, expertise, commitment and a clear vision to be a presuror of change, an innovator of new enhance technologies involving efficient energy water controllers.

With our new product; EDC Panels which is an economical panel with a PID controller embedded into the panel, we hope to become one of the leaders in Singapore water industry who provides new technology to improve the water management systems.

Euroflo constantly upgrades our product features to match the everchanging market trend & customers needs and vow that we will never say "NO" to adding features our partners request or demand.

Private label

Our aim is to support companies all over the world with knowledge and high quality products. Both products and support can be adjusted to your company. Our range of EDC panels is available with Euroflo-label or private labeled.

Features

**Easy
Installation**

**User-
Friendly**
